**Holiday Goods.**  
The Holiday season is now at hand and everybody is making a nice display of goods usually sold at this season of the year. Those who desire to see a fine and grand display of Books, Albums, Bibles, Testaments, Perfumery cases, Toilet cases, Notions and Paper novelties will do well to call at Saur's large Book and News depot. He has without a doubt the nicest and largest display and is very anxious that the people should come in and look at his goods and get his prices. They will find all kinds of Holiday goods, in every department, very much nicer than elsewhere, besides a great many articles which are entirely new and novel, and much lower in price, so that all can afford to buy something at least for the children if not for the older ones. Make your selections early and you will be more apt to get just what will suit you best.

Three Findlay churches are without pastors. Chicken feed and soap grease at the Pork House. 3c

Toledo has what they call progressive eucher parties. Silk mufflers for the Holidays at Honck's the Tailor. 1c

The town was full of farmers and their families last Saturday. The Bohemian oats men are thick as bees in this country.

Children's and ladies' fine Saxony mittens. 2c HELLMERS.

The residence of Treasurer Pillit had a narrow escape from fire Saturday morning.

Judge Meekison issued seventeen licenses to marry during the month of November.

We learn that Mrs. Mary Brennan, widow of Capt. Brennan, has drawn a pension of \$3,850 78. Her attorney was E. A. Palmer. None deserve a pension more than she does.

The "cow-jumped-over-the-moon" bonnet has made its appearance in Napoleon. It's the latest. We suppose the coming spring head-gear will be "the dish-ran-after-the-epoon."

Paper shirts are the latest invention. The buson of the garment consists of seven layers one of which can be torn off every day, on the blotting pad principle, exposing a clean white surface in its place.

Parents should prohibit their sons and daughters from roaming about the streets after dark. More bad habits are formed and mischief done on such occasions than can be atoned for in a lifetime. Save yourselves future heartaches.

When a remedy has proven itself to be a cure for consumption and a perfect lung restorer, it should be kept in every well regulated home. We refer to Dr. Wistar's Balsam of Wild Cherry, single dose of which will cure an ordinary cough or cold. A few bottles will cure consumption. It is very pleasant to take. 2c

It is said there is nothing that will so promptly cut short a congestion of the lungs, sore throat or rheumatism as hot water when applied promptly and thoroughly. A glass of water, as hot as one can drink, taken half an hour before bedtime, with proper attention to diet, will cure any curable case of dyspepsia, and will give relief almost from the first glass. This is certainly worth a trial.

We would be highly pleased if our friends and patrons would speak a good word to their neighbors in our behalf. Every Democrat in the county should subscribe for the NORTHWEST before he does for any city paper, if he needs more and varied reading matter. We are striving to make the NORTHWEST a better local paper than ever and well worthy the large patronage it is receiving. Our aim is to place the paper in every Democratic household in the county, and to gain this end we have the active co-operation of our friends throughout the county. Send in the names and the cash.

**The Sheffield & Norton Bank.**  
The receiver of the banking house of Sheffield & Norton is now paying a dividend of 5 per cent., which makes a total dividend paid of 25 per cent. This is probably the last dividend the receiver will pay for some length of time, as the lands and securities he holds are slow in turning themselves into money. Several large claims, now in court, will take years to adjust, and times are such that real estate is slow sale, therefore, there is no saying when another dividend will be paid. There are thousands of dollars worth of good and valuable real estate to dispose of, which is offered to creditors at a fair price, in order to get claims adjusted as rapidly as possible. The title to these lands are perfect, we understand, so that no creditor need have fears upon that score. Certificates will be taken for these lands at their full face, and if the claim is not large enough to cover the amount of land wanted, a reasonable time will be given for the remainder of the purchase money. Mr. Norton appears to be anxious to do all in his power to liquidate the indebtedness of the bank, and we believe it would be to the interest of creditors to take this real estate.

**Human Gore Flows in the Streets of Florida.**  
Last Wednesday night the slumbering echoes of the village of Florida, this county, were awakened by the sharp report of pistols and the cry of "blood."

It appears that in the early part of the evening trouble arose between Bill Dencer and two brothers, named Jake and Charley Mowery, dwelling which Jake Mowery was forcibly evicted from Dencer's saloon. In a short time the brothers re-entered the saloon, Jake carrying a revolver in his hand. High words again arose. Dencer pulled a revolver and firing commenced. Jake Mowery had a finger shot off by a ball from Dencer's pistol, Charley then took the pistol from his brother and opened fire but immediately fell pierced by a wound in the left breast which, it was at first thought, would prove fatal. Dencer received a ball in the neck, but not serious. The ball that dropped Charles Mowery entered the left breast just above the nipple and lodged under the left arm.

On Monday the Mowerys were arrested, on complaint of Dencer. Jake appeared before Justice Schofield, waived examination and was bound over to await the action of the grand jury; his bond was fixed at \$250. Charles was unable to appear for hearing.

Dencer claims to have acted in self defense; while the friends of the Mowerys lay the blame on Dencer.

**NEBRASKA LETTER.**  
NORTH LOUP, Neb., Nov. 22, 1884.

MR. EDITOR:—As it was the request of a number of my Henry County friends that I should wait a year and then let them know what I thought of this part of Neb.; they thinking, perhaps, that I was too hasty in my praise of this part of the West. I have now been here a year, and am free to say that my family and I are well pleased with the country here, and I would say that I think that a man can do better with a small capital here than any place I have ever seen. Land can be bought very cheap. Claims of 160 acres can be purchased at \$500 and upwards, according to the improvements, and just as good soil as the Maumee River bottom land, and a more healthy climate I don't think can be found. As for fruit, I think the hardy varieties will do well here, as I have never seen more thrifty looking orchards than those around here. There is plenty of wild fruit, such as gooseberries, cherries and plums; the plums are of the finest variety that I ever saw. The wheat crop was not as good this year as usual. Wheat yielded from 18 to 24 bushels per acre, oats 40 to 60, corn 50 to 60. Grain is very low in price at present, wheat is worth 37 cents, oats 18 cents and corn 20 cents per bushel at the stock ranches. Farmers can make money raising corn at 20 cents per bushel. Fat hogs are worth \$3 25 per hundred; milk cows are worth \$40 to \$50 per head, spring calves from \$10 to \$12. I sold some small yearlings at \$19 per head. As for timber, we have none to speak of. We have to depend on coal and corn-cobs for fuel. Our coal is shipped from Montana territory. It is as fine a quality of coal as I ever saw and costs \$8 per ton. Respectfully,

J. F. HALL.

The people of Ohio are getting tired of October elections in Presidential years, and no doubt there will be a change before 1888. The following petition is going around, and has received unanimous support from the leaders of both parties and should be univ.ally signed, asking the Legislature to change the time:

To the Honorable, the General Assembly of the State of Ohio:

The undersigned citizens of Ohio, respectfully represent to your honorable body that the holding of the State election in the month of October, during the year of the Presidential election, affects most injuriously the business interests of the State, and results in much needless protraction of the anxiety and disturbance of the political contest; that it entails upon our people a heavy burden of additional expense, it invites into our State, during the preliminary campaign, a manner of corrupting influences; and its distracting and pernicious effect is felt, more or less seriously throughout the whole country. We therefore most earnestly request your honorable body to submit to the people at the next election, an amendment to the constitution changing the time of holding the State election from October to November.
